Round-up of GoNEXUS' first year

Introducing GoNEXUS, an exciting 4-year project which will look for better governance solutions for the water, energy, food and ecosystem nexus. To do this, GoNEXUS will compile data from stakeholders to co-design predictive scenarios, and a model toolbox to propose solutions.

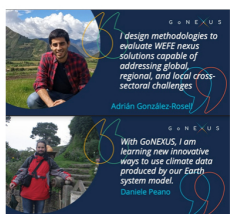

Are you a professional working in the WEFE nexus? Or a policymaker looking for ways to balance re-balance natural resources in your region? Or would you simply like to learn more about effective natural resources management? Visit gonexus.eu to learn more.

News

[What has GoNEXUS been reading?](#)

Every few months, discover the latest interesting scientific reads of our team of experts. Themes are diverse: going from the Politics of Irrigation in Sub-Saharan Africa, to plant phenology and global climate change, passing by Governing for Transformative Change and much more. There is something for everyone. Check them out!

[Spotlight on young GoNEXUS researchers Daniele Peano & Adrián Gonzalez-Rosell](#)

We will regularly put the spotlight on some of our younger team members. Through these articles you can learn more about the researchers behind the project. Not only about their field of expertise but also about their interest, ambitions, and even their music taste.

[Global Nexus challenges identified](#)

Climate change, economic growth, and economic development are phenomenon that pressure and challenge the demand, supply, and distribution of our precious resources. GoNEXUS aims at tackling such global challenges by targeting specific ones. Learn about them [here](#).

Upcoming Events

**9 > 11
November 2022**

Online

1st Danube Basin Dialogue

From [9 to 11th of November](#), the first Danube basin dialogue will take place online. The event aims at brainstorming through interventions and discussions on the challenges, modelling capacities and first potential solutions.
